

Cloud-based simplicity meets business-class performance

Now it's simple to connect from the remote desktop to the meeting room

LifeSize Passport Connect is the first HD video system designed to work with cloud-based communication solutions to provide seamless, real-time collaboration from the desktop to the meeting room. LifeSize Connections is the first cloud-based, business-class HD video collaboration platform, enabling secure, immersive communication between meeting rooms and desktops. Together, they deliver a revolutionary cloud-optimized video collaboration experience that keeps remote workers, teleworkers or road warriors connected with meeting rooms in a simple to use, simple to deploy video collaboration solution.

Shattering barriers to broad adoption, LifeSize® Passport Connect™ vastly simplifies deployment and user experience, minimizing total cost of ownership. LifeSize Passport Connect accelerates universal video collaboration and is ideal for telecommuters and remote offices.

And now we're making it easy for you to get started. LifeSize Passport Connect is priced for broad deployment to meetings rooms at just US\$999 when you buy a one-year subscription to LifeSize Connections. Real-time communication has never been more essential for businesses where increased collaboration and productivity are critical. LifeSize Passport Connect expands HD video communication for true universal video collaboration.

Video collaboration. Amazingly simple, simply amazing.
